Volume 30, Number 1, March 1985

CONTENTS

Scientific papers

1 RAFAEL L. BRAS, DONALD GROSSMAN & DAVID SCHAFER: The effects of hydrometeorology on the GOES random data collection system

23 *Flood Studies: a report on the Workshop held in Birmingham, UK, on 27 and 28 February 1984*

25 C. CUNNANE: Factors affecting choice of distribution for flood series

37 MICHAEL C. ACREMAN: Predicting the mean annual flood from basin characteristics in Scotland

51 M. FIORENTINO, P. VERSACE & F. ROSSI: Regional flood frequency estimation using the two-component extreme value distribution

65 LARS GOTTSCHALK: Hydrological rationalization of Sweden

85 J. R. M. HOSKING, JAMES R. WALLIS & ERIC F. WOOD: An appraisal of the regional flood frequency procedure in the UK *Flood Studies Report*

111 P. LAMBERTI & S. PILATI: Probability distributions of annual maxima of seasonal hydrological variables

137 RENZO ROSSO: A linear approach to the influence of discharge measurement error on flood estimates

151 S. E. WILTSHIRE: Grouping basins for regional flood frequency analysis

Announcements

161 International Symposium on Erosion and Sedimentation in Arab countries

161 International Symposium on Drainage Basin Sediment Delivery

161 International Symposium on Glacier Mass Balance, Fluctuations and Runoff

162 NATO Advanced Study Institute: Engineering Reliability and Risk in Water Resources

162 Second Scientific Assembly of IAHS

News

163 International Symposium on Challenges in African Hydrology and Water Resources

165 Anglo-Polish Hydrological Workshop

169 Opening of International Research and Training Centre on Erosion and Sedimentation (IRTCES) in China

Book reviews

171 "Highway and Urban Hydrology" by L. H. Watkins & D. Fiddes

172 "Catchment Experiments in Fluvial Geomorphology" edited by T. P. Burt & D. E. Walling

173 "Hydrology and Water Resources in Tropical Regions" by J. Balek

174 "Principles of Water Quality" by Thomas D. Waite

174 *Publications received by the Editor*

176 *Diary of forthcoming events*

Volume 30, Number 2, June 1985

CONTENTS

Scientific papers

185 I. S. ROXBURGH: Thermal infrared detection of submarine springs associated with the Plymouth Limestone

197 R. SRIKANTHAN & T. A. MCMAHON: Recurrence interval of drought events through stochastic analysis of rainfall and streamflow data

207 BONIFACE C. E. EGBOKA: Appropriate monitoring techniques using bomb tritium and other geochemical parameters in hydrogeological investigations

225 ALBERT RANGO: An international perspective on large-scale snow studies

239 R. LAL: Soil erosion and sediment transport research in tropical Africa

257 BRUCE B. HANSHAW & WILLIAM BACK: Deciphering hydrological systems by means of geochemical processes

273 R. J. MOORE: The probability-distributed principle and runoff production at point and basin scales

Note to the Editor

299 from H. Laudelout on "Stream water chemistry and seasonal soil biological activity"

Announcements

303 IAHS at the IUGG Assembly, Vancouver 1987

306 International Symposium on Erosion and Sediment Transport in Pacific Rim Mountain Lands

306 International Conference on Infiltration: Development and Application

307 International Symposium on Hydrology in Perspective: Lessons from the Past: Prospects for the Future

308 International Symposium on Avalanche Formation, Movement and Effects

309 International Symposium on Drainage Basin Sediment Delivery

News

311 Acid Rain Modelling Workshop

Book reviews

312 "Fluvial Hydrology" by S. Lawrence Dingman

313 "Tank Model with Snow Component" by M. Sugawara *et al.*

314 "Isotope Hydrology 1983" (Proceedings of the IAEA Vienna Symposium, September 1983)

316 "Impounded Rivers. Perspectives for Ecological Management" by G. E. Petts

317 *Publications received by the Editor*

319 *Diary of forthcoming events*

Volume 30, Number 3, September 1985

CONTENTS

Scientific papers

331 BRUCE HUNT: The meaning of oscillations in unit hydrograph S-curves

343 ISAMU KAYANE, MAKOTO TANIGUCHI & KAZUHIRO SANJO: Alteration of the groundwater thermal regime caused by advection

361 FRANZ BULTOT & ANNE COPPENS: Puissance d'une averse

371 K. J. GREGORY, A. M. GURNELL & C. T. HILL: The permanence of debris dams related to river channel processes

383 MING-KO WOO & PETER R. WAYLEN: Macroscale estimation of evaporation from regional water balance

395 A. N. JAMES & K. J. EDWORTHY: The effects of water interactions on engineering structures

407 NECATİ AĞIRALİOĞLU: Analytical solution of leaf-shaped basin flow

News

425 Workshop of IAHS Hydrology 2000 Working Group

427 International Workshop on Operational Applications of Mathematical Models (Surface Water) for Developing Countries

429 Workshop on the Correction of Precipitation Measurements

Obituary

431 Howard Latimer Penman

Book reviews

433 "Flow Measuring Flumes for Open Channel Systems" by M. G. Bos *et. al.*

434 "Ground Water in Hard Rocks" prepared by the panel for IHP Project 8.6 (chairman: Ingemar Larsson)

435 "Rivers: Form and Process" by Maria Morisawa

436 "Proceedings of the ISSS Symposium on Water and Solute Movement in Heavy Clay Soils" edited by J. Bouma & P. A. C. Raats

437 *Publications received by the Editor*

440 *Diary of forthcoming events*

Volume 30, Number 4, December 1985

CONTENTS

Scientific papers

449 B. W. WEBB & D. E. WALLING: Temporal variation of river water temperatures in a Devon river system

465 STEN BERGSTRÖM & MAJA BRANDT: Measurement of areal water equivalent of snow by natural gamma radiation—experiences from northern Sweden

479 T. O'DONNELL: A direct three-parameter Muskingum procedure incorporating lateral inflow

497 T. C. SHARMA: Stochastic characteristics of rainfall-runoff processes in Zambia

513 R. W. DUCK, J. MCMANUS & J. A. CHARLTON: A modified technique for radar tracking of float-drogues in lake water circulation investigations

Announcements

523 International Symposium on the Impact of Large Water Projects on the Environment

524 International Seminar on Water Management for Agricultural Development

News

526 International Workshop on the Role of Forecasting in Water Resources Planning

Book reviews

529 "Fundamentals of Transport Phenomena in Porous Media" edited by Jacob Bear & M. Yavuz Corapcioglu

530 "Streamflow Characteristics" by H. C. Riggs

532 *Publications received by the Editor*

534 *Diary of forthcoming events*

541 *Author index 1985*
